

# Engineering Project Evaluation Form

Project Number:

This rubric is a guideline for a complete science fair project. Projects should include the following weighted items.

	Yes	No	Comments	Points Possible	Points Scored
<b>Problem</b> What is the practical need or problem you are trying to solve?				10	
<b>Design Plan</b> Describe your plan and what solutions you explored to solve this need or problem.				15	
<b>Construction</b> Describe how your design demonstrates the solution to the need or problem.				20	
<b>Testing</b> Describe how you tested the project, how many times it was tested, and the conditions of the tests.				20	
<b>Creativity</b> Describe how your project creatively meets the need or problem you recognized.				20	
<b>Presentation</b> Does your presentation include an understanding of the engineering skill? Can you describe how this model solves the problem or how it can be adjusted to meet the need?				15	
<b>TOTAL</b>				100
